To Whom It May Concern:

ADT Austin has been using the training program provided by Elite CEU for the past couple of years. We love the program! As the administrator, I have found that it is a great time saver for both me and the staff who use the program for training. It is very informative, reliable and cost effective.

The staff no longer has to travel for training. They can either take the program at home or in the office. The convenience alone is worth a great deal to the staff.

Working with Kaleb has been effortless. He is always available by phone, fax or email.

I think we have found the perfect solution to training for the PSB licensing required by the state and the security industry.

Sincerely,

Dolores Gage
Licensing Coordinator

Kaleb Brashear
Elite CEU's

Dear Kaleb:

I wanted to express how well using your company has turned out for ADT. In the San Antonio office, there have been so many positive remarks made by participants who have sat through those training classes in the past from other vendors for those 8 hours.

Since we can now do the training through your company, the productivity of our teams has improved. There's no more taking that person out of their working environment for 8 hours-an entire day! They can complete their required CEU's in 2 hour increments.

It's been a positive experience all the way around. And that includes working directly with you Kaleb.

I am looking forward to our continued business relationship.

Sincerely,

Sandy McDonald

Austin, Texas 78717

Sam:

Please let this letter serve as a thank you and commendation on the service provided by your staff at Elite CEU. Our company was "behind the eight ball" in our state licensing certification and many of our issues are now on the fast track to compliance thanks to the assistance of Elite CEU and its staff.

There are many resources out there when trying to train and prepare our technicians for the New Jersey Licensing Exam and the coordination has been difficult. Elite CEU has stepped in with a "one-stop shopping" system that allows our technicians to easily schedule and choose the best path for success in the renewal or attainment of their license.

Thank you again to a job well done in assisting ADT Security in the coordination and compliance of the training requirements in the state of New Jersey. I look forward to a prosperous relationship.

Sincerely,

Re: Online Training

Dear Mr. Brashear:

I have reviewed the courses taken to date with our Technicians and Managers and would like to say that they are very pleased with the course content and the user friendly interaction on your website.

We will be adding more Technicians to the roster from our Mount laurel office after the first of January.

Thanks for your attention and follow up on the progress of the training.

Sincerely,

William A. Schlesinger
General Manager

To Whom It May Concern:

I am the owner of a small alarm company. We have been very busy doing service and installations and find it difficult to take off an entire day to take classes. That is not usually an option.

The application that your company offers is very user friendly. I have found taking these classes online very helpful as far as convenience and information. The staff is always available, knowledgeable and friendly. I like that the certificates are emailed directly to me. It is great to know that I can take these courses at my convenience, in my own timeframe.

I appreciate the fact that I can count on Elite Ceu to offer classes that help me to keep up with the requirements of my alarm licenses.

Thank you for finding a very useful solution for me and my company. I will continue to use Elite Ceu regularly.

Sincerely,

Sam:

Thank you for the wonderful service that you provide to businessmen such as me. I am able to focus on my business and still obtain the CEU's needed to maintain my Licenses through your online classes.

The flexibility your online courses offer are invaluable in today's business environment. The content is informative and useful. Many of the courses I have had to take include a sales presentation in order to sell something. This is a waste of my valuable time and I can instead focus that energy on my business.

Your site is user friendly and again, I can take the course according to my schedule. Thank you again for a job well done.

Dear Sam,

It has been our distinct pleasure to utilize the services of Elite CEU. Formal classes do not ordinarily follow our personal schedules nor suit our convenience.

Instead of traveling for seminars, the online courses have allowed my staff and me to efficiently meet the alarm industry licensing requirements of various state agencies where continuing education coursework is required.

Based on your thoroughness and professionalism we highly recommend that Elite CEU be accepted as an accredited online company.

Sincerely,

Andrew Toner

Re: On-line CEU credits.

Dear Sam:

Just a quick note to follow up on the on-line courses that I have taken with Elite CEU. The courses are relevant, well prepared and easy to understand.

The hardest part about keeping up with continuing education requirements is the time away from the office and associated expenses. Just one day out of the office makes our business suffer. Your on-line courses provide an economical solution to allow us to continue our education without sacrificing the time needed to run our business.

Thanks for making our continuing education easier

Your truly,

G. Scott Kindred
President

TO WHOM IT MAY CONCERN

I JAMES NASTA AM A LOCKSMITH IN THE STATE OF NJ. I HAVE TAKEN SEVERAL ON LINE CLASSES WITH ELITE CEU. I FIND IT VERY EDUCATIONAL AND REWARDING. DUE TO THE NATURE OF OUR TRADE LOCKSMITHING IS A 24-7 JOB. MANY OF US DO NOT HAVE TIME TO SIT IN A CLASS ROOM FOR 6 OR 7 HOURS ON A SATURDAY OR SUNDAY. OR DURING THE WEEK WHICH WILL COST YOU MORE MONEY. BECAUSE YOUR TRUCK IS NOT ON THE ROAD. I HAVE TAKEN CLASSES LATE AT NIGHT ONLINE BECAUSE IT IS THE ONLY FREE TIME I HAVE. A CLOSE FRIEND OF MINE IS AN EMT. AND HE TAKES HIS CEU CLASSES ONLINE HIS WIFE IS A NURSE SHE TAKES HER CEU CLASSES ONLINE, THESE PEOPLE ARE IN THE BUSINESS OF SAVING LIVES. IF ON LINE CLASSES ARE GOOD FOR THEM. THEN THEY ARE GOOD FOR US LOCKSMITHS. ELITE CEU HAS GIVEN ME THE FREEDOM TO EARN MY CEU'S AT MY OWN PACE. BUT MOST OF ALL NOT HAVING TO TURN DOWN ANY JOBS BECAUSE I WAS STUCK IN CLASS ROOM ALL DAY. I WILL CONTINUE TO USE ELITE CEU FOR ALL MY CEU REQUIREMENTS.

THANK YOU
JAMES NASTA

Dear Mr. Brashear,

I want to let you know how pleased we are with your online courses to earn CEU credits that are required for our New Jersey licenses.

We are a small company and our focus must be on serving our Customer and cannot afford to be devoting our time to attending classes during the workweek. With your courses we can take classes evenings, weekends, and whenever we have an opening in the week.

Your course content is a good refresher for our skills even after being in the Security field for 30+ years and I appreciate that it's not focused on advertising for specific products as some instructor-led courses are.

Thank you for your excellent course offering. It's making a big difference for us by being able to be flexible in our schedules. I don't know how we could have succeeded in taking courses this year without your great online service.

Sincerely,

Elite CEU / Vice President
16238 RR620 N. Ste.F
Austin, Texas 78717

Dear Mr. Brashear:

This letter is in response to your phone call. We appreciate the well thought-out courses that you provide.

As you are aware, to maintain the professional status of New Jersey licensed locksmiths, the licensee is required to complete 36 CEU's every three years. As working people who often do not have the time to take off and travel possibly great distances to attend classes in person, your courses have been a godsend to help us fulfill our requirements. When times may be slow (we are just as affected by the sluggish economy as everyone else) time could be utilized in a constructive manner. Formal classes do not ordinarily follow our personal schedules nor suit our convenience.

In the 21st century many accredited schools offer online courses and these are almost universally recognized as a legitimate way to meet the educational needs of people from all walks of life. Your courses are structured to keep the student honest: one must follow the sequence of the lessons without possibility of skipping. This ensures that the student is exposed to all of the material.

Your courses meet a definite need, and based on their thoroughness, we feel that they should be accepted by our state. As mentioned earlier, the purpose is to maintain a high level of professionalism and to protect the public from scammers who prey on the unsuspecting, trusting consumer. The courses do provide the training to help us continue to ply our livelihood as professional locksmiths.

Sincerely yours,

Ian Macotela

Sam:

Elite CEU's online courses have been a terrific way of earning my required credits for license renewal. Living in the northwestern tip of New Jersey, logging on to my computer sure beats traveling at least an hour or more to the nearest location offering credits. The classes I have completed so far have been well designed and educational. It is nice to learn at your own pace, have time to study materials and even review them if needed.

I have been in the alarm business for over 25 years now and taken all kinds of classes through the years. The online courses Elite CEU offers rank up there with the best.

Thank you for providing a well needed service to the industry.

Best Regards,
FIN SECURITY LLC

Dear Sir or Madam;

I am sending this letter to let you know how much I appreciated the classes that were made available through Elite C.E.U. Locksmith courses. I have been a Locksmith for nine years. Since that time, New Jersey has changed their requirements for the licensing of locksmiths. It has been a real concern to me how to attain the proper credit hours that the state requires. It was difficult to be sure which courses were accredited by the state and where to find the proper certified courses. I have found many excellent courses in your company. I look forward to taking more classes in the future so I can excel in my occupation.

Yours truly,

Sam;

Thanks again for your call the other day. I appreciate the excellent service your company provides. The format in which you offer these classes is excellent. And we would be at a loss without it. It's great to be able to do these classes in an informal location during our slow times. Also the ability to go over the material again at our leisure has unlimited benefits. I don't know what we would do if your classes were'nt available? I just glad they are. BTW we need more classes!! I'm particularly interested in automotive locksmithing & commercial door repairs, hint hint. I mean we're good for this year's (09-10) requirements but come next August we have to start on the next 36 credits.

Thanks Again,
David Creighton,

December 10, 2009

Dear Sam,

Just wanted to drop you a line to let you know how much of a help your continuing education classes were.

It's not always easy to find the time to attend formal classes with work and family schedules. Credit courses offered on-line solved this problem for me and the nice thing about on-line courses is you can take them at your own speed and go back and revisit any areas that are not clear.

Having been a locksmith for over 10 years, I thought continuing education courses would be a total waste of time, however, I must admit I did learn a few things I wasn't aware of and there were also a few things that refreshed my memory on subjects I haven't worked with in a while.

Thanks again, for making it possible to gain the credits needed to renew my license.

Sincerely,

Donald Versfelt

Dear Mr. Brashear,

I'd like to thank you and your staff for providing such a useful product. As you know we started using your services this year with positive results. Your Web Site is very easy to use and manage.

We can achieve our necessary CEU credits without interrupting our work schedule and in this economy that is a very big plus.

The aspect of achieving CEU Credits in the relaxed environment of you own home is great. I like the idea that the courses force you to view all information and then take a test.

Also I'd like to compliment your staff any questions Ive had were promptly addressed and resolved.

I looking forward for this type of service in the future.

Sincerely

Sam:

I wanted to take this opportunity to say thank you for the great service you provide. In today's challenging business world, your company gives me the ability to focus on my business and still get the CEU's needed to maintain my Licenses.

The ability to take the course in the evening or weekends makes it the perfect solution. Unlike many courses that I have already attended throughout NJ, yours are not sales pitches put on by a sales rep for a specific product.

Your site is simple to use, your pricing is in line with what people are charging locally and again, I can take the course in the comfort of my home at my convenience instead of taking time out of an already busy work week.

Thanks again for a job well done.

Dear Mr. Brasher,

I would like to thank you for following up on my progress with your continuing education programs(s).

I am very pleased with your training materials and have found many benefits not available before, I will list a few thoughts below.

1. The ability to progress at my own pace has enabled me to understand and retain more information (education).
2. Having to sacrifice valuable work time is and has always been an expense that we can now greatly reduce thanks to companies like Elite bringing us into the 20th - century.
3. Expenses incurred attending seminars including travel and sometimes lodging add up after a while, the savings here are obvious.
4. Speaking only for myself, recently and I expect into next year I will be spending some time out of the New Jersey area for personal / family matters. I can benefit in two ways. First, scheduling and attending seminars under these circumstances is very difficult. Secondly, while away, undoubtedly there will be some free time which lends itself ideally to this situation.

I have found your website and courses easy to access and use, after meeting the minimum requirements I plan to continue using your courses in any areas I feel weak in.

Thank You,
The ALARM COMPANY, Inc.

Frank Koenig, Account Rep.
